

# Mount monitor to pole

Written By: Tanya Taylor

 **TOOLS:**

- Large Phillips head screwdriver (1)
  - Adjustable spanner (1)
-

## Step 1 — Mounting parts

- The monitor comes with:
  - 2 x mounting brackets
  - 3 x U-bolts for 45mm (1½") diameter poles
  - 2 x metal bands for pole diameters between 21-44mm (1-1½")
  - 2 x metal bands for pole diameters between 59–82mm (2-3").

**i** The brackets can be used for either pole or fence mounting.

## Step 2

- For pole mounting, secure the top mounting bracket at a suitable height using two U-bolts or metal bands.
- For fence mounting, screw the brackets into the fence instead of using the U-bolts."

### Step 3

- Fix lower mounting bracket to the monitor's chassis with screws.

### Step 4

- Align the slot on the back of the monitor with the top mounting bracket and lower the monitor on to the bracket.

## Step 5

- Place U-bolt or metal band through lower mounting bracket.
- ⓘ Note: Only one U-bolt is used to secure the bottom bracket.

## Step 6

- Add nuts and washers and tighten the bottom U-bolt into position.

## Step 7 — Video of steps

- For extra help, watch our video.
